

SUBJECT: RoHS and REACH

European Environmental Legislation – Restriction of Hazardous Substances (RoHS)

Fry Steel Company, a California corporation, hereby certifies to the best of our knowledge based on the producing mill test reports or other certification of compliance that all products listed below that we supply to you are RoHS compliant (without exemptions) and do not exceed the designated levels of Lead, Cadmium, Hexavalent Chromium, Mercury, Polybrominated Biphenyls, Polybrominated Diphenyl Ethers, Bis(2-Ethylhexyl) phthalate, Benzyl butyl phthalate, Dibutyl phthalate or Diisobutyl phthalate legislated under the provisions of the European Parliament and Council Directive on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment ((EU) 2015/863 (RoHS 3)) and regulations promulgated thereunder, collectively, the “RoHS Regulations,” except with respect to Brass C-360 material, due to the amount of lead contained within the material.

Registration, Evaluation, Authorization and Restriction of Chemical Substances (REACH)

This document also certifies to the best of our knowledge based on the producing mill’s test reports or other certification of compliance that none of the products listed below that we supply to you contains Substances of Very High Concern (SVHC) as listed by the European Chemicals Agency (ECHA) under the provisions of Regulation (EC) No. 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH), as amended, as such list was published as of June 14, 2023.

The above information is provided to the best of our knowledge as of the date set forth below based on our review of current composition information supplied by the producing mills. The producing mill test reports are provided to our customers with every order, which reports the composition information. However, as Fry Steel Company does not manufacture, or alter the chemical composition of the product, we do not specifically analyze these products for the presence of the substances referred to above and does not guarantee the absence or level of these substances to any specific limit or threshold value. The information provided above should not be used as a substitute for your own tests and analyses.

Fry Steel Company undertakes no duty, obligation or responsibility to update, revise, supplement or amend any information contained herein.
